

Stage-Gate® Process Manager Masterclass

The Link Between Stage-Gate Success & Process Management

15th & 16th September 2016 Venue : Hilton, Mumbai International Airport

Organised By

Powered By

KEY BENEFITS

- A highly interactive, practical and pragmatic course for existing and / or aspiring process managers and those considering implementing this role.
- Leave equipped with new tools / techniques that can be immediately applied in the workplace.
- A excellent opportunity to identify personal strengths and weaknesses, explore ways to lever or facilitate growth by self assessment against a tried and tested model.
- Spend two days and network with other process managers embarking down the same path.

KEY TAKEAWAYS

- A full profile of an Innovation process manager - identifying the responsibilities for each of the six key roles and the competencies required to undertake that role (Skills, behaviours and Knowledge).
- A practical understanding of best practice tools, techniques and top tips from successful organisations.
- Individual action plans for personal and business development to allow the learning's to be embedded back in the workplace.

LEARNING OUTCOMES

- Understanding the six roles of the model profile of an innovation process manager and how these sit with the other roles involved in the process framework.
- Analysing how the model profile compares with their current situation
- Evaluating opportunities for adapting & applying each of the six key roles of a process manager.
- Identifying personal strengths and opportunities for learning and growth by self assessing their own skills, knowledge and behaviours versus those of the model.
- Creating practical action plans for personal and business development.
- Improving their action plans via a 1 hour follow up coaching and support session with the course facilitator.

WHO SHOULD ATTEND THIS PROGRAM

- Existing NPD / Stage-Gate Process Managers in need of training.
- Individuals who want to become NPD / Stage-Gate Process Managers.
- Innovation executives whose role includes managing the product development and innovation process.
- Human resource practitioners responsible for organizing and leading functional training and who expect to train others on the role of a Process Manager.
- Product Managers / Product Developers whose role includes managing the firms NPD process.
